

Midcomp (Pty) Ltd offers world-class support, with a team of 13 factory-trained field service engineers that have the fastest measured response times in the industry. We also offer our customer's a production backup facility at our Innovation Hub. In the event of a customer experiencing technical failure, they can continue production at our facility while a field service engineer resolves the problem, thus ensuring that deadlines are met.

Midcomp (Pty) Ltd is the only company to offer a Pay Per Use (PPU) where customers only pay for the square metres they print. It is a smarter way to print with a fixed cost per square metre rate that is customised around your business. This rate includes ink, printheads, spare parts, service maintenance kits and labour. No unexpected payments for repairs to your printer if it breaks down. This programme is available for the HP Latex range. As part of our 'Catalyst for Growth' promise we have evolved into a group of three focal companies which includes Midcomp Azero (Large format printers and plotters) and Midcomp Consumables (Digital print media).
