UNICAM SA (PTY) LTD

We are a leading, technologically focused, World-Class, CNC Manufacturer based in Cape Town, South Africa. We are committed to manufacturing highly reliable, easy-to-use and technologically advanced CNC machines to match and surpass European Competitors. We refer to our solid CNC units as 'Panzer Tanks'- see one and you will quickly understand why the word 'robust' doesn't do our CNC units justice.

We make use of innovative technology backed by decades of industrial automation and manufacturing experience (over 5200 automated units built), with the bonus of a global network of trusted suppliers who share our vision; manufacturing 'No-nonsense' machines.

BRANDS: UNICAM SA CNC ROUTERS, MILLS, DESKTOP AND CNC MACHINING CENTRES

UPRINT SA

We sell our own original print technology which has the world's first chemical transfer process. The printer we use is an OKI printer engine. We convert the fuser unit into a new modification, allowing for the paper to pass through the printer without the ink (toner) being fused (dried) to the page.

Our modification, including our unique RIP software, gives birth to chemical transfer printing and

heat transfer all in one printer. You no longer need sublimation products or UV printers to print on limited items. The U-Print Chemical transfer printing process can brand on every single surface on the planet. When we say every surface, we mean it.
